*What is a Fathom? A fathom is a unit of length in Standard English that is used to measure ocean depths. It is approximately 6 vertical feet. To get the total depth in feet from fathoms given, just multiply by 6.

What are Ocean Zones? - Extreme Science

1 (usually the ocean) [singular] (especially North American English) the mass of salt water that covers most of the earth's surface the depths of the ocean People were swimming in the ocean despite the hurricane warning. The plane hit the ocean several miles offshore. Our beach house is just a couple of miles from the ocean. an ocean liner Ocean levels are rising.

ocean noun - Definition, pictures, pronunciation and usage ...

The deep sea or deep layer is the lowest layer in the ocean, existing below the thermocline and above the seabed, at a depth of 1000 fathoms (1800 m) or more. Little or no light penetrates this part of the ocean, and most of the organisms that live there rely for subsistence on falling organic matter produced in the photic zone. For this reason, scientists once assumed that life would be sparse ...

Deep sea - Wikipedia

The Challenger Deep in the Mariana Trench is the deepest known point in Earth's oceans. In 2010 the United States Center for Coastal & Ocean Mapping measured the depth of the Challenger Deep at 10,994 meters (36,070 feet) below sea level with an estimated vertical accuracy of ± 40 meters. If Mount ...

Deepest Part of the Ocean - Deepest Ocean Trench - Geology

In 2008, a team of researchers exploring the Japan trench with a remotely operated vehicle filmed footage of the deepest-known species of fish. The fish, known as snailfish, had never been seen alive before. Scientists had only five pickled specimens that had been dredged up from the deep and preserved for study.

Deepest Fish - Snailfish - Extreme Science

In addition to its crucial role for regulating the climate and weather, the ocean is vital to the world's economy, with more than 90% of trade using sea routes and as a source of jobs for millions of people. The ocean is also the siege of a growing range of new ocean-related economic activities ...

Innovation for a sustainable ocean economy - OECD
